| Concepts              | Object Oriented Programming (OOP), REST APIs, MVC Architecture, Responsive |

## Projects

### Car Rental System

Technologies: HTML, CSS, JavaScript, Bootstrap, Java, SQL  
Developed a web-based application that allows users to browse available cars and book rentals. Implemented booking functionality and stored rental data in SQL database.

### Hospital Management System

Technologies: Java, SQL, HTML, CSS  
Built a system to manage hospital operations including patient registration, doctor management, appointments, and medical records storage.

### Cafe Management System

Technologies: Java, HTML, CSS  
Developed an application to manage cafe menu items, customer orders, and billing operations.

## **Additional Projects**

### **Portfolio Website**

Technologies: HTML, CSS, JavaScript

Designed a personal portfolio website to showcase projects, technical skills, and contact information.

### **Books Management System**

Technologies: Java, SQL

Created a CRUD-based application to manage book records such as adding, updating, deleting, and searching books.

### **E-commerce Website**

Technologies: HTML, CSS, JavaScript, Bootstrap

Developed an online shopping platform with product listing and responsive user interface.

### **Online Cake Management System**

Technologies: HTML, CSS, JavaScript, SQL

Built a system where users can browse cakes, place orders, and manage customer details.

## **Strengths**

- Strong problem-solving and analytical skills
- Quick learner with ability to adapt to new technologies
- Good communication and teamwork skills
- Passionate about software development and innovation

## **Languages**

Marathi (Native)

Hindi (Fluent)

English (Professional)
